Annexe 3 - Guidelines of Assessment

1. Introduction

In education, the term assessment refers to the wide variety of methods or tools that educators use to evaluate, measure, and document the academic readiness, learning progress, skill acquisition or education needs of students.

Assessment is therefore an integral part of the teaching and learning process and is determined both by the professional background of each pedagogue, and by the policy and guidelines followed by the educational provider.

Assessment can be formative or summative, analytical, or holistic.

Assessment is **formative** when either formal or informal procedures are used to gather evidence of learning during the learning process and are used to adapt teaching to meet student needs. The process permits teachers and students to collect information about student progress and to suggest adjustments to the teacher’s approach to instruction and the student’s approach to learning. In Tallinn European School, formative assessment also includes an evaluation of attendance and behaviour.

Assessment is **summative** when it is used to evaluate student learning at the end of the instructional process or of a period of learning. The purpose is to summarise the students’ achievements and to determine whether, and to what degree, the students have demonstrated understanding of that learning.

In **analytical** assessment, each criterion is evaluated specifically and separately, whereas in **holistic** assessment, all criteria are evaluated globally and simultaneously.

Tallinn European School adopts the following assessment policy, based on the European Schools regulations (Ref: *General rules of the European Schools 2014-03-D-14-en-10*) and their new marking scales (Ref.: *TES Marking Scales*). This document will give an outline of the assessment policies Tallinn European School is using in accordance to the European assessment policy. It outlines the grading, reporting and promotion along with a schedule when certain aspects of this policy will occur.

Frequency of Assessment

Oral feedback is given in every lesson, whereas written assessment should be expected with the following frequency:

Subject lessons per week	Minimum elements of formative assessment	Minimum elements of summative assessment
16	Three times a week	Three times a month
9	Twice a week	Twice a month
6-7	Average 1.5 a week	Average 1.5 a month
4-5	Once a week	Once a month
2-3	Twice a month	Twice a semester
1	Once a month	Once a semester

2. Timeline of assessment and reporting events

- **November:** Parent-teacher interviews with subject teachers. Mid-semester class council and report (secondary).
- **January/ February:** First class council meeting to discuss pupils' progress.
- **January/ February:** End of semester one report. A warning letter and requests for parents will be issued to any student in danger of not passing the year.
- **February:** Progress review meetings with class teachers.
- **March/ April:** Mid-semester report (secondary).
- **June:** End of year report. At the end of the school year the class council will decide whether a pupil may move to the year above or is required to repeat the year. The decision will be based on the General rules of the European Schools, the pupil's profile and the standard of the attainment of the relevant competences, as described in the June report.

4. Absences

At least 90% of attendance of the students at school classes during the school year is a requirement of Tallinn European School. The class council might overlook this requirement, depending on the reasons why the student has been absent for a period longer than the permitted 10% of the year.

Attendance take is obligatory at the beginning of the day for all Nursery and Primary pupils and for each period for all Secondary pupils. Following attendance status can be introduced to MySchool:

	Does it contribute to total absences?
Present	No
Late	Yes 3 cumulative lateness's count as one absence
Absent	Yes
Excused with a prior agreement (Agreement with the CT, Educational adviser, or Deputy; includes leaving early with justification)	No
Absent with Medical Certificate (Doctor's certificate or parent informing about sickness, doctors' appointment)	No
In School	No
School Trip	No
Homeschooling	No

Subject teachers insert all absences in MySchool as unexcused, and at the end of the day class teachers may revise their nature.

Excused with prior agreement has to be agreed with the School Director or the Deputy Director(s). Leaving early with justification can be agreed with the Educational Adviser or the Class Teacher.

By the beginning of each new week, all appeals against inaccurate descriptions of absences need to have been made, otherwise the absences reason will remain as stated originally in MySchool.

5. Weight of the assessment type in the end of semester reports

Year groups	Formative assessment	Summative assessment	Exams (one per semester)
Primary 1-2	100%	-	-
Primary 3-5	80%	20%	-
Secondary 1-3 (Basic subjects)	60%	40%	-
Secondary 1-3 (other subjects)	70%	30%	-
Secondary 4-6	50% of A mark	50% of A mark	B mark

All subjects at all levels, except for Ethics and Complementary activities (e.g. European Studies), are promotion subjects. In Secondary 1-3 subjects are classified as follows:

Promotion subjects

- Basic subjects
 - Language 1
 - Mathematics
 - Language 2
 - Human Sciences
 - Integrated Science
 - Language 3
- Other subjects
 - Art
 - Music
 - Physical Education
 - ICT

Non-promotion subjects

- Ethics
- Complementary activities

6. Transition and promotion to the next year level

6.1. Primary 1-5

At the end of the second semester, the class council will discuss each student's progress and summarise the performance in four subjects which are considered the main ones in Primary: Mother Tongue, Language 2, Mathematics and Discovery of the World. On that basis it will decide about promotion to the year above.

6.2. Secondary 1-3

Based on the New Marking Scale of the European Schools (Ref.: TES Marking Scales) and its annexed regulations, on Secondary 1-3 reports there are going to be only letter grades, and no numerical marks.

Since it is no longer possible to calculate averages of final marks, class councils will reach their decisions at the end of the second semester on the basis of a **compensation rule**.

Pupils who have achieved an E grade or higher (standard) in each of the promotion subjects will be promoted to the year above.

In the case of pupils who have not achieved the standard, they still have the possibility to compensate for their grade(s) lower than an E grade on the basis of a new compensation system, which is in line with the current promotion rules.

- Each F has to be compensated for by one D (or higher grade)
- Each FX has to be compensated for:
 - by one grade B (or A)
 - by one grade C and one grade D or higher
 - by three grades D or higher

Pupils who have not achieved the standard (at least a grade E) either in three or more basic subjects, or in two basic subjects and two or more other subjects AND who are unable to compensate for their grade(s) below the standard cannot be promoted to the year above.

6.3. Secondary 4-5

At the end of the school year, pupils who have achieved a mark of at least 5 out of 10 in each of the promotion subjects shall be automatically promoted to the year above, without the need for deliberation.

Unless otherwise decided by class councils, which alone are competent to judge whether it is advisable to recur to special provisions, pupils who have failed to achieve an average of 5 out of 10 calculated on the basis of all the marks achieved in the promotion subjects and who have achieved four or more marks below 5 out of 10 in all the promotion subjects, shall not be promoted to the year above.

6.4. Secondary 6

At the end of the school year, pupils who have achieved a mark of at least 6 out of 10 in each of the promotion subjects shall be automatically promoted to the year above, without the need for deliberation.

Unless otherwise decided by class councils, which alone are competent to judge whether it is advisable to recur to special provisions, pupils who have failed to achieve an average of 6 out of 10 calculated on the basis of all the marks achieved in the promotion subjects and who have achieved four or more marks below 5 out of 10 in all the promotion subjects, shall not be promoted to the year above.

Annexe 4 - Primary and Secondary Grading Scales

Tallinn European Schools adopts the following grading scales, based on the European Schools regulations (Ref: *General rules of the European Schools* [2014-03-D-14-en-10](#)) and their new marking scales (Ref: <https://www.eursec.eu/en/European-Schools/studies/markingscale>).

Primary 1-2

In order to allow for a smooth transition from Nursery to Primary, and to emphasise fully the formative aspects of assessment in early primary education, Primary 1 and 2 students will be graded in MySchool with comments, and not with numerical marks, letter grades or other level defining symbols.

Primary 3-5

Mark	Description
++++	The competence can be used confidently and applied appropriately and independently in new situations
+++	The competence can be used confidently and applied appropriately
++	The competence has been partially acquired
+	The competence has not been acquired

This grading scheme is applied to reports only. Any grade or comment in MySchool during the regular lessons in the school year is given according to the following correspondence, not to be confused with Secondary letter grades: A (++++), B (+++), C (++), D (+).

Secondary

Annexe 6 - IT Policy

To be revised, linked with Office 365 guidelines and added to School Rules.

[Download the IT Policy](#)

Annexe 7 - Antibullying policy

To be revised and linked to the KiVa programme.

1. Background and basic principles in TES

All European schools have to ensure that pupils have as secure, safe and friendly educational environment as possible. For that reason, each school should develop and publish clear policy and procedures to be followed in case of bullying. Also, every school should have a programme or strategy to avoid bullying as part of the yearly school activities.

Anti-bullying policy in Tallinn European School is based on the principle of prevention meaning that school implements systematic activities to promote a culture of caring and positive interaction in the school community.

Team effort is another important principle in the bullying prevention meaning that it is the responsibility of every teacher, school worker, pupil and parent to ensure a safe and peaceful learning environment.

Systemic intervention is the third principle in the anti-bullying policy meaning that the school enforces effective tackling of bullying cases coming to the attention of the school. This facilitates the creation of an openly antibullying atmosphere in the school.

2. Definition of bullying, basic theory

Bullying in school is systematic aggressive behaviour against a person who finds it difficult to defend him/herself against the perpetrator(s). Repeated nature of attacks and power differential are central features in this definition.

Bullying can take different forms: verbal (name calling, mocking), physical (pushing, hitting), indirect acts (spreading rumours, excluding sb.) and cyberbullying.

Rather than consisting of single attacks, bullying represents a rather stable relationship further embedded in the larger peer setting. Bullying can be a strategy to gain status and power in the peer group and it is often successful.

By choosing victims who are submissive, insecure, physically weak and in a low-power, rejected position in the group, the bullies can repeatedly demonstrate their power and renew their high-status position without being confronted. The power demonstrations need witnesses – in most bullying incidents, a group of peers is present.

Influencing the peer context is therefore an essential part of effective antibullying work. Students need to become aware of their own role in maintaining bullying, as well as their potential in putting an end to it. Efforts should be made to influence group norms to build capacity in all children to behave in constructive ways, to take responsibility for supporting victims rather than encouraging the bullies.

Universal phenomenon - about 10% of children and adolescents worldwide are systematic victims.

3. Preventive actions as a strategy in TES

The ethos of TES is founded on the basis of mutual respect between all members of the school community.

Therefore, a proactive approach should be taken aiming to prevent problems developing by raising awareness and suggesting strategies that promote a positive, supportive environment.

Action at school level:

1. Special attention is given to the school climate so that it reflects respect, tolerance, caring, trust and support. Everyone in the school community should be mindful of their interactions with one another so that this positive behaviour is reflected.
2. To ensure a pleasant and friendly learning atmosphere a set of school regulations and rules have been drawn up which are meant to be followed on a daily basis. During recess time students are provided with regular supervision which is supervised by the Deputy Director. A roster is drawn up including all the teachers on a rotational basis.
3. Teachers are provided with training to ensure a common understanding of bullying and strategies to respond constructively. If necessary, teachers are encouraged to seek expert help from the advisory support group which includes the Director, Deputy Director, school psychologist, therapist and one class teacher each from primary and secondary cycles.
4. All members of the school community have the responsibility to act on incidents of bullying behaviour and to intervene when necessary. Bullying cases should be reported to the class teacher of the pupils involved and Deputy Director will record the incidence on the prescribed forms.
5. All activity focusing on the team spirit and communality also has a preventive effect on the occurrence of bullying. This kind of work can be carried out by pupil council, parents council, various projects in school and with other partners.

Action at classroom level:

1. Each teacher should raise awareness of bullying within their classes so that children understand that bullying is unacceptable and not to be tolerated.
2. Victims and bystanders understand that they should report incidents of bullying to their peers, teachers or parents. A distinction needs to be made between "telling tales" to get somebody into trouble and seeking help to avoid injury. A mailbox will be set up for anonymous letters of concern from the students.
3. Bystanders understand that wherever possible they should help/protect their peers whom they see are being bullied. Influencing the peer context can reduce the rewards gained by the bullies and consequently their motivation to bully in the first place.
4. Various kinds of class-specific theme events, projects, school trips are delivered to all students by their classroom teachers and supported by other subject teachers. These activities are designed to improve and promote team spirit in classes and will have beneficial impact on general well-being at school.
5. Students should be provided with education in personal relations, communication skills, conflict resolution, encouragement of respect and tolerance. This is done in cooperation with classroom teachers and subject teachers.

Action at individual level:

1. Teachers provide support to bullied pupils.
2. Bullies are confronted for their unacceptable behaviour following a specified strategy. Their behaviour is monitored, and parents have to be informed of the instances of bullying.
3. Potential support pupils are involved (for example selected high-status classmates) and challenged to provide support for the victim.

4. Guidelines in case of bullying

The school takes an active stance against bullying by intervening immediately when it is observed. In order to do that it is important to make the distinction between bullying and conflict, fight or misunderstanding. Different procedures are implemented on different cases based on the initial screening.

Guidelines:

- Screening by classroom teacher - is this a case of systematic bullying or is it a case of conflict or fight?
- In case of a fight, misunderstanding or conflict, the classroom teacher is the one who handles the case.
- In case of bullying classroom teacher works in collaboration with trained teachers. Classroom teacher fills in the screening form (see in annex 1). Further activities are shared between classroom teacher and trained teachers.

The following procedure is being implemented in case of bullying:

1. Conversation with the bullied student. The victims need to feel that they are heard and helped by the adults at school. Ask concrete questions – what, when, where and by whom; who has not been involved (potential supporters for the victim). The conversation has to be documented (see annex 2).
2. Classroom teacher talks to other support students from the class who could help the victim.
3. Individual discussions with the bullies. The bullies need to be confronted for their unacceptable behaviour. These conversations should come as a surprise and not to be known in advance.
Conversations are documented (annex 3).
4. Group discussion with the pupils who have taken part in bullying. They have to commit to changing their behaviour. They are being told that their behaviour is being monitored and the follow-up meeting shall take place later. Conversation is documented (annex 4).
5. To ensure that bullying will not continue, the staff arranges the follow-up discussions separately with the victim (has the situation changed) and the pupils who have taken part in bullying (how can we make sure that there will be no more bullying). If the victim is willing to participate in the discussion with the bullies, the joint discussion is held. Again, the discussion is documented (annex 5).

Parents are provided with information about bullying incidence after the preliminary discussions. They are assured that the case is being handled professionally and delicately. Also they are being informed that parents do not deal directly themselves with bullying issues at school, but follow the agreed procedures.
